

# ***FIREARM SUICIDE PREVENTION DAY***

## ***Social Media Toolkit***

America's deadliest shootings are the ones we don't talk enough about: Over half of all gun deaths in America are suicides. We lose 74 people to gun suicide every day in America — more than are lost to firearm homicides and unintentional shootings combined.

We need to talk more about gun suicide, so we can talk about how to prevent it. Safe firearm storage is key to saving lives.

If you or someone you know is contemplating suicide, call or text 988 or visit [988lifeline.org](https://988lifeline.org) to reach the free and confidential 988 Suicide & Crisis Lifeline.

*As of July 17, 2025, the Trump administration closed specialized services for LGBTQ+ youth within 988. For specialized LGBTQ+ care, call Trevor Project counselors at 1-866-488-7386.*

## ABOUT FIREARM SUICIDE PREVENTION DAY

Firearm Suicide Prevention Day, established by Brady and End Family Fire, is held annually on the second Tuesday in September. The date was created to raise awareness about America's growing firearm suicide crisis and promote the importance of storing firearms safely and securely — which means locked, unloaded, and separate from ammunition — as an essential component of suicide prevention. It is an opportunity to mobilize and hear from doctors, researchers, survivors, veterans, mental health experts, and more about the evidence-based role of safe firearm storage in preventing America's firearm suicide crisis.

America's deadliest shootings are the ones we don't talk enough about – gun suicides.

Let's change that. This #SuicidePreventionMonth, take a moment to ask those you care about if their firearms are stored locked, unloaded, and away from ammo.

Together, we can #EndFamilyFire.
